RE: Rae's Creek interceptor project

Mr. Cheek:

This letter is to thank you for all the good work your department has accomplished recently. Your careful approach to this project resulted in an improved system without any disruption to our daily operation. We appreciate your willingness to meet with us to review the work before starting, and as things progressed.

We also want to thank you for selecting W.L. Hailey & Company as your Contractor. Jeff Seal and Mike Rast are quality Gentlemen ...always patient and reliable in their methods. It's hard to imagine that a better contractor exists in their line of work. Although we experienced record rainfall, they still managed to finish ahead of schedule. W.L. Hailey is clearly suited for, and well-versed in, the business of overcoming obstacles.

Results count, and in the end, we couldn't be more satisfied with the final results of the project. Hopefully the Utilities department is pleased with the outcome of the project as well.

In the future we will all benefit from projects that follow a similar course.

Thank you,

A handwritten signature in black ink, appearing to read "Chip Scammon", written over a horizontal line.
